**CHIHO ENVIRONMENTAL GROUP LIMITED**

(Stock Code: 976.HK)

## **New Appointments**

**September 4, 2020**—**Hong Kong** Chiho Environmental Group (the “Company”) is pleased to announce that Mr. Pradeep Kumar has joined the Company on September 1, 2020 as the COO for Asia (excluding Greater China). He will be responsible for the Company’s scrap metal and motor dismantling operations and partnerships in India, Malaysia, and Thailand. Pradeep will report to Mr. Marc Breidenbach, the COO of the Group.

Pradeep Kumar, 40 years old, has more than 15 years of working experience in industrial equipment, materials, and the chemical industry. His previous assignments include strategic planning, business development, digitalization and Business Director for the Indian Sub-Continent and South East Asia. Mr. Kumar has a bachelor's degree in chemical engineering and a master's degree in business administration (Marketing & Operations) from Symbiosis University, Pune.

The Company also welcomes Mr. Kevin Wang who joined our Greater China operations in Beijing on September 1, 2020 as the Head of Technical Operations. He will be responsible for project investment management, production, maintenance, engineering and HSEQ departments. Kevin will report to the COO of the Group.

Kevin Wang, 42 years old, has more than 15 years working experience in the engineering industry and in chemicals. In his previous career, Kevin focused on corporate strategy, project management, engineering and production as well as technology development. Kevin has a master and a bachelor’s degree in chemical engineering from East China University of Science and Technology. Kevin also joined several course programs at London School of Economics and Political Science and at Wharton Business School at the University of Pennsylvania.

---

Commenting on Mr. Kumar's appointment, CEO of the Company, Mr. Rafael Suchan said, "We are delighted to welcome Mr. Kumar as the COO of Asia. His appointment will benefit us in enhancing the management of the various sites and partnerships the Company has across Asia." Commenting also on Mr. Wang's appointment, Mr. Suchan said, "Mr Wang brings an extensive experience in investment project execution, operational performance improvement and continuous development, as well as enhancing our existing technical capabilities. Another important task for Mr. Wang is to take lead in the transfer of the Company's technical expertise of our ELV, shredding and post shredding technology from Germany to China for the establishment of our ELV operations in China."
